Instructions

Unpack and place out on a clean suitable area to build your new Bench Roller system. Ensure the area chosen has protection located under Bench Top and other parts. This is to protect from accidental scratching and chips these are not covered under warranty.

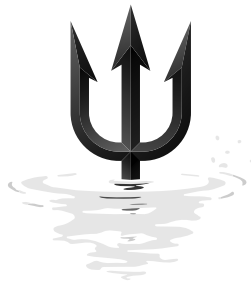

The following is required for the building of your system:

- 13mm Socket/ Spanner
- Drill
- Phillips Head Drill Bit
- Rubber Mallet

Your Package includes :

- Bench Top
- One Side Leg with Gear Box (already located on leg)
- One Side Leg with bearing (already located on leg)
- Strap Kit
- Bench Support Leg
- Telescopic Tube
- Self Tapping Screw
- Gearbox Handle
